Vaccination Progress

County of San Diego - COVID-19 Vaccination

Source: County of San Diego, Health and Human Services Agency, Public Health Services, Epidemiology and Immunization Services Branch - Updated 5/10/2021

Goal Population: 2,017,011 San Diegans

Percent of the Goal Vaccinated with At Least One Dose

San Diego County Residents Vaccinated with At Least One Dose

1,735,615

Percent of the Goal Fully Vaccinated

San Diego County Residents Fully Vaccinated

1,260,031

Goal Population is 75% of San Diego County residents age 16 years and older, or 2,017,011 individuals. The 16 years and older San Diego County population is 2,689,348. The total San Diego County population is 3,370,418. Population estimates are from California Department of Finance 2020 Population Estimates March 2020 release. Individuals vaccinated from some tribal entities and some prisons and federal detention facilities are not included, as these providers do not report to SDIR. Veterans Affairs individuals vaccinated added 4/28/2021. Department of Defense (DoD) individuals vaccinated added 5/6/2021. A small number of individuals vaccinated at DoD San Diego sites are residents of surrounding counties but receive care in San Diego County. San Diego County residents vaccinated with Johnson & Johnson Janssen single dose vaccine are included in "vaccinated with at least one dose" and "fully vaccinated" categories.
