

Here's how it works

Using this pass is like checking a book out of the library. All you need is your Chula Vista Public Library card. First, ask about the museum pass at the information desk. Sign up for it there or go online at www.chulavistalibrary.com and search for "museum pass." Then, the library will tell you when it's your turn to have the pass, and, after you pick up the pass, you and your family can use it to visit the museum and learn about human culture and human history! That's two adults, four kids, and a whole lot of free fun!

But hurry! You have just one week from checkout to use it!

The sooner you return this pass to the library, the sooner another happy family can visit the museum, too.

This pass is good for up to two adults and up to four children. It may also be used for discounts in our museum store and on event tickets. This pass has no redeemable value and cannot be traded, sold, exchanged, or reimbursed, and will not be honored if it is copied, altered, or rendered unreadable. Overdue passes will not be honored. This pass is not valid for special upcharged exhibits.

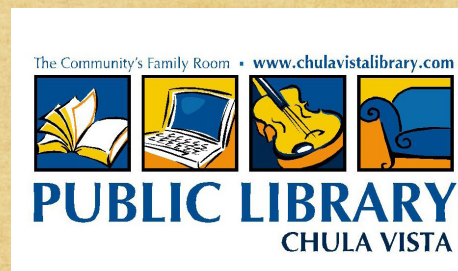

You're holding something special:
