Proposal Narrative

Purpose/Need (specify program or project title)

(Limited to 10 words or less)

Requesting assistance with community demonstration of lighting/energy efficiency

Amount of request to support program/project:

5000.00

Program/project budget:

35000.00

Time table for this program or project:

Grant would cover period beginning: 11/20/2017 Grant would cover period ending: 12/31/2018

Proposal Narrative

Further describe program/project for which you are requesting funding for:

(Response is limited to 200 words or less)

We are working on a energy efficiency demonstration of holiday lighting for the Civic Center campus - demonstrating the use of permanent LED programmable up lighting in conjunction with Starlight Parade and the community holiday fair in the park. This Civic Center Campus is designated as a community park in this disadvantaged community area of Chula Vista.

Describe the need, objectives and any relevant research that supports the effort:

(Limited to 200 words or less)

This project will make permanent the lighting on the Civic Center campus park area and eliminate the need for temporary lights, enhancing public health and safety. The City is providing \$30,000 and is in need of \$5,000 more to complete the project.

Describe or list benefits to the community that may result from support of the proposed grant:

(Limited to 200 words or less)

The Community expects the City to "dress" the city buildings with holiday trimmings adding to the holiday spirit of the Starlight Parade and holiday festivities in the park. With SDGE's assistance we can provide the expected "dressing" while demonstrating energy efficiency and cost reductions in this disadvantaged community area of Chula Vista. This campus is frequented by the surrounding residents and is central to the community. The library across the street is a beacon to the residents from this disadvantaged region. Staff will be able to provide signage that explains the demonstration and SDGE support of the project.

Population Served by Grant:

Program funding would support the following areas:

(Choose category which best describes end recipient the grant would primarily benefit)

Civic & Community-Community Issues/Events

Program/project primarily benefits following gender:

(Choose category which best describes end recipient the grant would primarily benefit)

Both

Program/project primarily benefits following age group:

(Choose category which best describes end recipient the grant would primarily benefit)

General Population (All ages)

Program/project primarily serves this audience (choose up to 3):

(Choose category which best describes end recipient the grant would primarily benefit)

Minorities in General/Multi Cultural

Hispanic

General Population/All (not specified by ethnicity)

Describe the geographic areas that will be served by the proposed grant support:

(Provide county and state information only)

City of Chula Vista, County of San Diego, California 91910

Program or Project Sustainability:

Describe your strategy for expanding financial support of the program or project to avoid over-dependence on single funding sources:

(Limited to 200 words or less)

This will be a one time funding requirement for this project as the City will be providing \$30,000 through other funding sources. Operations and maintenance will be ongoing responsibility of the City. This will make permanent, long term improvements to the Civic Center Campus and park area.

Communication strategy to gain awareness of your program or project in the community. Enter "none" in this field if not applicable.

(Provide overview of your plan and if San Diego Gas & Electric could receive recognition and visibility for the grant, e.g., newsletters, media releases, event recognition, web site acknowledgement, etc. If ads, logos or banners are included, please provide design specifications and due dates)

We will be creating small "realtor type signs" to be place in the landscaped areas of the park, under the lights, explaining the energy efficiency benefits of the project and providing recognition for SDGE. We will work with SDGE staff on the design and sizing of these signs as well as any press releases, newsletters, and parade narrative recognition.

San Diego Gas and Electric employees involved with your organization or whom you have been in contact with regarding this request:

Vanessa Mapula Garcia

Is the organization willing to provide a year-end report on how grant funds were spent?

(Check box if response is yes)

Yes
