

Tecnológico
de Monterrey

Mexico, DF, Thursday, November 12th, 2015.

Departamento de Educación Ejecutiva
Instituto Tecnológico y de Estudios Superiores de Monterrey, ITESM

To WASC Senior College and University Commission,

The Tecnológico de Monterrey (Monterrey Institute of Technology Departamento de Educación Ejecutiva) is 12th one of the largest, private institutions of higher education in Latin America with over 90,000 students. Studies at the Tecnológico de Monterrey are officially accredited by the Secretariat of Public Education of Mexico (Secretaria de Educación Pública, SEP) and by the Southern Association of Colleges and Schools (SACS) of the United States.

The ITESM maintains strategic educational partnerships with US institutions including Johns Hopkins, Carnegie-Mellon, University of Texas, University of North Carolina, and University of San Diego.

Saint Katherine College is ideally positioned to become a strategic educational partner. The College has a particular focus on rigorous liberal arts and sciences education that complements our educational philosophy. They also maintain an entrepreneurial spirit of education which we find particularly useful.

Following initial accreditation by the WASC Senior College and University Commission, we will formalize an educational agreement that will permit student exchange as well as scholarly and research collaborations between our institutions.

We look forward to partnering with Saint Katherine College to further educational opportunities at both our institutions.

M.A. Ana María Álvarez Salazar
Directora General de Educación Ejecutiva y Vinculación
Campus Zona Metropolitana de la Ciudad de México
Rectoría Zona Centro-Sur
