20. What are your principal areas of interest in our City government, and what experience or special knowledge can you bring to those areas?

My areas of interest in city government are finances, city planning and independent reviews.

I want to see the City of Chula Vista finances improved, leaned by conservative measures and reducing waste when possible. I have a background in Economics and Banking from my college education. This trained me to recognize sound budgets and expenditures.

Recently working in construction I worked with contractors and it was quite apparent how our relationship impact the bottom line. As the city grows and builds or repairs infrastructure, I find it imperative that contracts with city government should balance the city's priorities, have sound fiscal aims and zero conflicts of interest.

During my two years in the Peace Corps in Central Africa I monitored development projects to confirm the monies were used precisely for their purpose and conducted audits to ensure no bribes were paid and no funds remained unaccounted.

I know investigations and hearings require an attentive listener but also an unbiased judge. I have in many capacities exercised sound judgment and a code of ethics that I offer to the Board. For example, I am an annual scholarship reader at the

University of San Diego. At my current workplace, I volunteered to form the panel of an expulsion hearing. Previously I was selected as a jury member for a federal drug case. As a former network engineer and bank employee, I have been privy to sensitive information and managed user accounts with a high degree of professionalism.

It is extremely important to have codes that are well defined and broad enough for everyone to follow. It is also necessary to have community members seeking the best interest of our community. It is now my wish to contribute to the city I call my home and to contribute to its future.

21. What would you hope to accomplish in the role of a Member of the Board of Ethics? (250 words or less)

As an Ethics Board member I aim to promote Chula Vista as a modern and transparent city government. I want to ensure that while the city grows and undertakes new opportunities, it remains committed to fair, practical, law abiding and conflict-free engagements.

I believe it is imperative to uphold and value the trust our city residents and constituents have granted our local government. I want to ensure the City does not do good things that appear bad. I want to ensure everyone is held accountable regardless of their social status. I want updates to city Code corrected expeditiously.

Equally important, I want to ensure current matters, hearings and investigations are concluded promptly. With city officials relying on the board's findings, I want to make sure the Board's procedures move diligently but quickly to solve matters as reasonably as possible.

22. I understand that to be considered, I must submit a resume along with this application.

21. What are your principal areas of interest in our City government, and what experience or special knowledge can you bring to those areas?

The City of Chula Vista is currently the second largest city in the region and is quickly gaining the attention of a wide variety of industries including breweries, technology, tourism, and education. As Chula Vista continues to grow, it is imperative that we plan for that growth and put in place proper systems to accommodate and foster that growth.

During my time at Southwest Strategies and at the San Diego Association of Governments (SANDAG), I have had the privilege of working on projects designed for future growth. While at Southwest Strategies, I managed outreach for the Carlsbad

Desalination Project, which now brings more than 40 million gallons of fresh water to the region annually. I assisted with the development process of the Barrio Logan Community Plan update to ensure the health and safety of residents while protecting the long-term sustainability of the shipyards and those small businesses that rely on them.

As a consultant and now an employee of SANDAG, I had the opportunity to develop and manage outreach and engagement programs for projects directly benefiting the City of Chula Vista, including the I-805 South Carpool Lanes and Sound Walls, the East Palomar Street Direct Access Ramp and Park & Ride, and South Bay Rapid. I currently manage the communications program for nearly \$1 billion in infrastructure to the Los Angeles-San Diego-San Luis Obispo (LOSSAN) railroad.

22. What would you hope to accomplish in the role of a Member of the Board of Ethics? (250 words or less)

As a former graduate of Eastlake High School, Rancho Del Rey Middle, and Olympic View Elementary school, Chula Vista has long been my home. My experience having worked as a consultant for government entities and now that I am working for the San Diego Association of Governments, coupled with my Masters in Legal Studies, provides me a unique perspective on ethical issues that could face the City of Chula Vista, whether it is conflicts of interest or records retention.

It is my hope to bring this experience to the City of Chula Vista.

23. I understand that to be considered, I must submit a resume along with this application.
