

Item 7  
Revision to Attachment  
(Aguilar)<sup>2</sup>

**“Specifically, it will be critical to integrate the F Street Promenade into the regional bikeway network by linking it to the Sweetwater Bicycle Path and Pedestrian Promenade and future Sweetwater Park, via the Lagoon Drive alignment. (The Port of San Diego recently received grant funding to construct the Sweetwater Bicycle Path and Pedestrian Promenade parallel to Marina Parkway.). A street with a class 2 bikeway now, under the Chula Vista Bayfront Master Plan Lagoon Drive is proposed to be converted to a bike-pedestrian only path across the F & G Street Marsh. The city and Port District should work together to begin design work on this important segment in the near future.”**
