Moving Tiers – Testing Positivity

Current: Because CA has **2 million** vaccine doses administered in HPI quartile 1

The case rate, test positivity, and health equity metric thresholds must be met to move forward toward more reopening.

WIDESPREAD	SUBSTANTIAL	MODERATE	MINIMAL
<ul style="list-style-type: none">• More than 10.0 daily new cases (per 100k)*• More than 8.0% positive test for entire county**	<ul style="list-style-type: none">• 4.0 – 10.0 daily new cases (per 100k)*• 5.0 – 8.0% positive tests for entire county**• Less than 8.1% positive tests for health equity quartile**	<ul style="list-style-type: none">• 1.0 – 3.9 daily new cases (per 100k)*• 2.0 – 4.9% positive tests for entire county**• Less than 5.3% positive tests for health equity quartile**	<ul style="list-style-type: none">• Less than 1.0 daily new case (per 100k)*• Less than 2.0% positive tests for entire county**• Less than 2.2% positive tests for health equity quartile**

If both the test positivity and health equity metric are especially low, and the case rate is declining but does not yet meet less restrictive tier's level, a county can still move forward towards more reopening. See [rules on accelerated progression](#).

Moving Tiers – Testing Positivity

When CA has **4 million** vaccine doses administered in HPI quartile 1

The case rate, test positivity, and health equity metric thresholds must be met to move forward toward more reopening.

WIDESPREAD	SUBSTANTIAL	MODERATE	MINIMAL
<ul style="list-style-type: none">• More than 10.0 daily new cases (per 100k)*• More than 8.0% positive test for entire county**	<ul style="list-style-type: none">• 6.0 –10.0 daily new cases (per 100k)*• 5.0 – 8.0% positive tests for entire county**• Less than 8.1% positive tests for health equity quartile**	<ul style="list-style-type: none">• 2.0 –5.9 daily new cases (per 100k)*• 2.0 – 4.9% positive tests for entire county**• Less than 5.3% positive tests for health equity quartile**	<ul style="list-style-type: none">• Less than 2.0 daily new cases (per 100k*)• Less than 2.0% positive tests for entire county**• Less than 2.2% positive tests for health equity quartile**

If both the test positivity and health equity metric are especially low, and the case rate is declining but does not yet meet less restrictive tier's level, a county can still move forward towards more reopening. See [rules on accelerated progression](#).

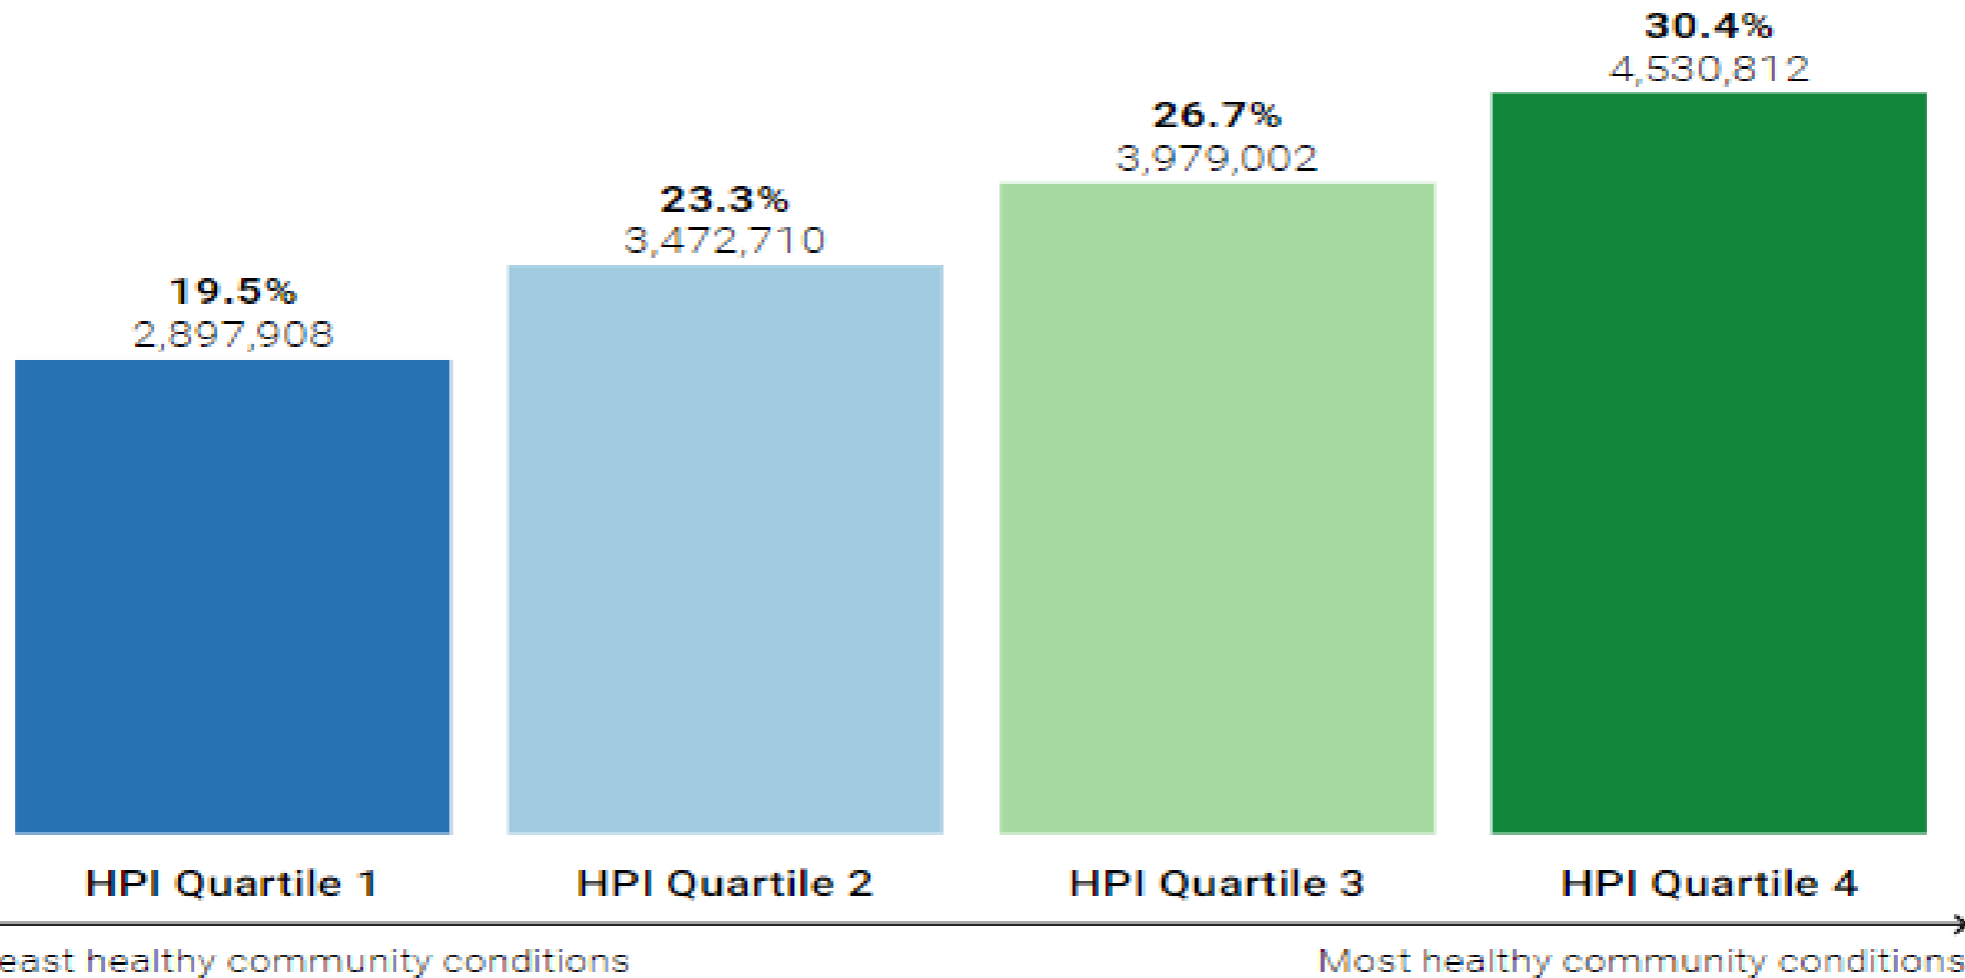

Statewide Vaccine

Vaccinations by doses administered

Number of vaccine doses given in California

■ % of total and number of doses administered

Updated March 23, 2021 with data from March 22, 2021. Excludes doses without an HPI score, including out-of-state residents or records with missing zip codes. Percentage for doses calculated as doses administered in a quartile divided by total doses administered statewide.
