11. Third Choice: (if applicable)

Not answered

12. [S] For the following board/commissions, please submit your resume: Board of Ethics, Board of Library Trustees, Civil Service Commission, Growth Management Oversight Commission, Parks & Recreation Commission

13. Are you registered to vote in Chula Vista?

Yes

14. Do you live within the City limits of Chula Vista?

Yes

15. How Long?

20 years

16. Present employer

Lakeside Union School District

17. Occupation

School Administrator

18. Are you currently serving on a Chula Vista Board/Commission?

No

19. Which one(s)?

N/A

20. Have you previously served on a Chula Vista Board/Commission?

(o) No

21. Which ones?

N/A

22. Are you or have you been involved in any local, civic or community groups?

(o) Yes

23. Which ones?

Christian Youth Theatre

24. What are your principal areas of interest in our City government, and what experience or special knowledge can you bring to those areas?

There are several personal and professional experiences that would allow me to serve the International Friendship Commission. My principal area of interest is to sustain existing partnerships and forge new relationships between the city of Chula Vista and our cities. I promote international travel amongst young people at work being that I work directly with students who are immersed in Chinese and Spanish language and culture. On a personal level, I have served as chaperone on a successful study abroad student exchange program. It would be an honor to serve the city as a Commissioner.

25. What would you hope to accomplish by your participation?

The city of Chula Vista currently has a sisterhood with the city of Irapuato, Guanajuato in Mexico. I have family in Irapuato. I hope to be instrumental in establishing a student ambassador program between both cities. Also, I would do everything I can to support the work of the International Friendship Commission.

I am familiar with the responsibilities of the Boards and Commissions for which I am applying. By submitting this application, I hereby attest that the above information is accurate and true.

Thank you,
City of Chula Vista

(o) No

23. Which ones?

Not answered

24. What are your principal areas of interest in our City government, and what experience or special knowledge can you bring to those areas?

I'm mainly interested into bringing about awareness to both environmental and economic issues within the community. Over the summer, I had the privilege of gaining exclusive views on Greece's economic plight, through a foreign education program with Brown University. This learning opportunity abroad in Europe taught me the certain economics experience unknown to most of my fellow youth. Furthermore, I have had previous experience doing both through my work in the "Trash Talkers" youth community program at Operation Samaha. Wherein, I was able to gain exclusive knowledge on the improvement of public ecological health, and the abilities necessary to teach and enact said knowledge. Of course, within the "Trash Talkers," our objectives could not have been met without proper funding. As a result, I am highly familiar with the process of fundraising, and funds managing through collaboration with local businesses. With my collective experience, I am able to bring information in improving the health of Chula Vista's environment, managing said improvement, and teach others how to reach these goals.

25. What would you hope to accomplish by your participation?

In joining the Youth Action Council, I hope to be able to improve the ecological conditions within Chula Vista, create financially sustainable ways to perpetuate this upgrade to the city, and be able to educate other community members on the importance of the aforementioned points. This is so that living quality within the city can increase and maintain high. In improving the quality of living in any small way possible, I hope that both current and future members of the community will be able to appreciate why I call Chula Vista my home. Looking forward, I plan to use any experience I can garner in order to spread this feeling of goodwill towards other facets of the San Diego county area.

26.

(o) I am familiar with the responsibilities of the Boards and Commissions for which I am applying. I attest that the information I have provided is accurate and true.

24. What are your principal areas of interest in our City government, and what experience or special knowledge can you bring to those areas?

I have been involved and am a member of my school School site council and Principal's round table. I also was very active in the schools accreditation process (WASC) last year. I love history and knowing how the government works. I feel it's important to know the world around you and how it affects all of us to become better citizens of this world.

25. What would you hope to accomplish by your participation?

Youth Action Council encompasses a bigger scale than what I've done at school. It would be gratifying to know that our actions through the YAC could affect a larger number of people. Affecting change like maybe starting a water bottle fill up station for all schools, especially the lower income ones, just like the one started up at Sweetwater High School.

26.

24. What are your principal areas of interest in our City government, and what experience or special knowledge can you bring to those areas?

My principal area of interest in the City government include gaining a new perspective of how the City's administrative system operates to see if I would be interested in studying law in college. I am starting to think about the different opportunities I will have when choosing a major in college, and I feel the Youth Action Council is a way that I can experience what it feels like to be part of a government body. Also being part of the council will teach me important values such as responsibility, how to work as a team to achieve a common goal, staying organized, and much more. Some experience I have with being part of a youth council include the Greater San Diego Science and Engineering Fair: Student Advisory Board(SAB). We meet about 2 to 3 times a month when nearing the science fair season to plan out what we want to accomplish that year. We also run free seminars on how to create and present a science fair project for middle and high school aged students. I feel I can bring the experience of being on the SAB to the Youth Action Council. As well as being part of the SAB I have played basketball since I was about 8 years old. I have grown to trust my teammates as they will trust me to do our job. I believe being in a team environment has helped me learn a sense of working together towards a common goal that I can apply to the Youth Action Council.

25. What would you hope to accomplish by your participation?

As part of the Youth Action Council I hope to organize more community events that families of all ages could participate in. As a long time resident of Chula Vista I always felt that we could do more as a city to engage the community in many fun events. One of the best memories I have from my childhood is watching the fireworks with my family along with many others from our community. I think it would be amazing to have events like this more often because it makes everyone feel proud to live in such a beautiful city. Another way I want to impact the city is spread the word of the Greater San Diego Science and Engineering Fair. Each year the fair mainly consists of students from the North County. Our schools don't promote the science fair because they simply don't know. It is a great way to establish connections with companies that come to look at the projects each year. If more people from the South Bay area would just know what opportunities such as the science fair could do for them they might consider entering. Also I would love to introduce new programs into the library systems for people of all ages. I currently volunteer at the Bonita library and I really admire the programs and clubs they provide to people from the community. I would love to introduce different community clubs such as a chess or music club and maybe even a superhero or Star Wars club for younger kids. Overall I would love to influence community involvement in whatever they find interesting and providing more opportunities to the people of Chula Vista

26.

(o) I am familiar with the responsibilities of the Boards and Commissions for which I am applying. I attest that the information I have provided is accurate and true.

22. Are you or have you been involved in any local, civic or community groups?

Yes

23. Which ones?

Sharp Junior Volunteer and Student Leadership

24. What are your principal areas of interest in our City government, and what experience or special knowledge can you bring to those areas?

I am interested in becoming a member of the Youth Action Council because I would like the opportunity to be more involved in my community and gain a better understanding of how Chula Vista's government works. As a current member of the Sharp Chula Vista Junior Volunteer team and leader on Student Leadership I have gained a deep appreciation for helping others and serving my community. I am also a new member of the Red Cross Club which provides me with additional opportunities to help individuals. I am a respectful, responsible, and hardworking individual and would appreciate the chance to be part of this council.

25. What would you hope to accomplish by your participation?

Through this experience I hope to establish a better relationship with my community and its members as well as further develop leadership skills through the council's many community outreach projects. I would also like to improve my general knowledge of the logistics of our city's government.

26.

(o) I am familiar with the responsibilities of the Boards and Commissions for which I am applying. I attest that the information I have provided is accurate and true.

(o) No

23. Which ones?

Not answered

24. What are your principal areas of interest in our City government, and what experience or special knowledge can you bring to those areas?

I am a 10th grade student at Eastlake High School and I am interested in learning more about the city government and the many leadership opportunities it offers. I would like to be a link between my peers and the government and I have some skills that could help with this. For example, I have learned how to work with others through my many years with the Girl Scouts of San Diego and I am also fluent in English and Spanish. This sounds like a very exciting learning opportunity that I could really benefit from.

25. What would you hope to accomplish by your participation?

I would like to bring the perspective of the Chula Vista youth to the City Council.

26.

24. What are your principal areas of interest in our City government, and what experience or special knowledge can you bring

to those areas?

My primary interests in City government are criminal justice, international relations, housing commission, and parks and recreation. I'm 16 years old and currently have limited experience in any of these areas but I do have a strong desire to learn and become involved with City government. The experience I have working in the community includes volunteering at Eastlake Community Church, helping coach youth lacrosse, and volunteering with HHSa for a local toy drive through Child Welfare Services.

25. What would you hope to accomplish by your participation?

I'm proud to have been raised in Chula Vista and I hope to participate in activities that will help better our city. I look forward to learning about city government and being a positive voice for the Youth of Chula Vista.
