

RESOLUTION NO. \_\_\_\_\_

RESOLUTION OF THE CITY COUNCIL OF THE CITY OF  
CHULA VISTA APPROVING AN AGREEMENT FOR  
PAVEMENT TESTING AND MANAGEMENT SERVICES  
BETWEEN THE CITY OF CHULA VISTA AND NICHOLS  
CONSULTING ENGINEERS, CHARTERED

WHEREAS, the City requires updated information on the pavement condition of all public streets included in the City's Pavement Management System in order to determine which streets need to be part of a rehabilitation program. The City's most recent Citywide inspection was done in fall 2011; and

WHEREAS, staff issued a Request for Proposals to provide Pavement Testing and Management Services on August 28, 2015; and

WHEREAS, four proposals were submitted by consultants. One of the proposals was received after the due date and was therefore disqualified; and

WHEREAS, the Selection Committee reviewed the three remaining proposals and decided that Nichols Consulting Engineers was the most qualified firm; and

WHEREAS, Consultant warrants and represents that it is experienced and staffed in a manner such that it can deliver the services required of Consultant to City in accordance with the time frames and the terms and conditions of the agreement; and

WHEREAS, Consultant's original bid for the required services was \$132,800. Staff recommends adding work related to Geographic Information Systems linkage for \$7,200 for a total of \$140,000; and

WHEREAS, the Request for Proposals included a stipulation for additional services (re-inspecting a selection of City streets within two to three years) at the option of the City. Staff estimates that the maximum cost of this work would be \$60,000.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Chula Vista, that it approves the Agreement for Pavement Testing and Management Services, between the City of Chula Vista and Nichols Consulting Engineers, Chartered, in the form presented, with such minor modifications as may be required or approved by the City Attorney, a copy of which shall be kept on file in the Office of the City Engineer, and authorizes and directs the Mayor or Public Works Director to execute same.
