15. Are you a California licensed real estate agent?

Yes

16. Please describe your interest, experience or special knowledge in Historic Preservation. (250 words or less)

I have always had a personal interest in real estate and Historic Preservation. I am a licensed California Real Estate Salesperson but not currently affiliated with a broker because I work full time for the federal government. Although I live in a new development area of Chula Vista, I previously lived in Washington D.C. on Capitol Hill in a historical row home. While I lived in Washington D.C. the area was undergoing (and still is) a massive gentrification and renovation. I was fascinated with the area and how certain buildings were being re purposed via adaptive re-use. I self-published a book called "Capitol Hill Converted" that focused on the transformation of historic school houses into modern living dwellings. I wish I still lived there, but I appreciate the Southern California weather and lifestyle much more! There are areas of West Chula Vista that need to be modernized but also preserved.

21. What do you hope to accomplish in the role of a Historic Preservation Commissioner? (250 words or less)

As I understand from the Board description, "The Historic Preservation Commission works with the Advance Planning Division of Development Services Department. The Commission meets the certified local government requirements, as defined by the national Historic Preservation Act, and serves as the authority on historic preservation matters, advises the City Council and other City boards and commissions, as needed, on historic preservation matters as is mandated by Chula Vista Municipal Code Title 21, Historic Preservation." I would have to attend a few meetings to find out what projects are in progress, but I would be

happy to assist in whatever way I can.

22. I understand that to be considered, I must submit a resume along with this application.

IMPERIAL COUNTY AIRPORT ADVISORY

20. What are your principal areas of interest in our City government, and what experience or special knowledge can you bring to those areas?

I have worked in the environmental industry for over 20 years finding solutions for managing industrial waste. I believe my experience can be helpful to the leadership of this city. I also feel that Chula Vista is ahead of most US cities. However, it is not at the forefront when it comes to sustainability. This city is falling behind most of the cities in Orange County & Los Angeles County.

21. What would you hope to accomplish in the role of a Resource Conservation Commissioner? (250 words or less)

I would like to see the City of Chula Vista be at the cutting edge when it comes to waste management. Our city today is not fully recycling the green waste and food waste. Also, I would like to see more outreach to the residents in educating them on how they can reduce their waste even further. I see opportunities where people in this city can place their food waste in the yard waste containers like they do in the bay area. This alone can have a large impact in diverting waste away from the landfill. I also see areas where we can reduce the carbon emissions. I think sometimes that this city's leadership waits until state regulations are implemented, before taking proactive measures. It is important to get input from individuals other than those working for the current waste provider. I have lots of ideas that won't take that much effort and expense.

I have been commercial and residential real estate consultant for the last 13 years in the San Diego/Chula Vista area. In the last year I worked for a major property management company where I was the Community Guidelines and Architectural Director for 5 communities on the east side of Chula Vista; Otay Ranch 3&5, Rolling Hills, The Village of Montecito, Lomas Verdes (approximately 8000 households). I was in charge of HOA guidelines and enforcement as well as coordinating, advising community boards, and approving all architectural plans for installation. As the Architectural Guidelines Director I was tasked with overseeing all facets of the architectural approval process from providing initial information to homeowners and vendors, reading arch plans/schematics to ensuring that elevation charts and materials adhere to each communities guidelines, drafting/revising guidelines and policies, plan and preside over board meetings, and perform site visits to ensure that all guidelines are being met up through completion.

21. What do you hope to accomplish in the role of a Historic Preservation Commissioner? (250 words or less)

I was raised most of life in the Southbay and later came back to Chula Vista to raise my family. At one point Chula Vista was the 3rd fastest growing city in the nation and referred to as the hidden gem. Chula Vista is not only a gem it is rich in culture and history. In order to sustain a thriving vibrant community we must pay homage to our past by blending our rich historical

past to our rich thriving future. If chosen to serve on this commission, my hope would be to continue preserving the cities rich culture by making it relevant for all future generations.
