Subject: No to Fire Department Budget Cuts

Dear Council Members & Mayor Salas, I know that the City of Chula Vista is facing financial problems and is looking at budget cuts. I wanted to let you know how disappointed I was to learn that our Fire Department faces deep cuts to a service that is invaluable to our community. The Chula Vista Fire Department currently has one of the lowest staffing levels in the nation and has failed to meet adequate response times six years in a row. This department cannot afford cuts and continue to offer the same level of service that I expect in return for my tax dollar. Please consider every possible avenue to not only maintain current fire department staffing levels. Better still consider increasing daily staffing levels and adding more engine companies to meet the growing demands of the City and to make Chula Vista a safer place to live.

Sincerely,
Elisabeth Lundgren

I wanted to let you know how disappointed I was to learn that our Fire Department faces deep cuts to a service that is invaluable to our community. The Chula Vista Fire Department currently has one of the lowest staffing levels in the nation and has failed to meet adequate response times six years in a row. This department cannot afford cuts and continue to offer the same level of service that I expect in return for my tax dollar. Please consider every possible avenue to not only maintain current fire department staffing levels. Better still consider increasing daily staffing levels and adding more engine companies to meet the growing demands of the City and to make Chula Vista a safer place to live.

Sincerely,
Stephanie Clifton

Subject: No to Fire Department Budget Cuts

Dear Council Members & Mayor Salas, I know that the City of Chula Vista is facing financial problems and is looking at budget cuts. I wanted to let you know how disappointed I was to learn that our Fire Department faces deep cuts to a service that is invaluable to our community. The Chula Vista Fire Department currently has one of the lowest staffing levels in the nation and has failed to meet adequate response times six years in a row. This department cannot afford cuts and continue to offer the same level of service that I expect in return for my tax dollar. If the City Council insists on being a Welcoming City and dismissing millions of Federal dollars, you are poorly representing the citizens of this City. It appears obvious the safety of Chula Vista taxing paying residents are not your priority. This City and its people should not be being put in jeopardy like it is with such poor decisions. As a retired fireman I know this City does not have the appropriate protection in place on the fire or police side. Stop increasing the danger and threat to our City's fair people. Please consider every possible avenue to not only maintain current fire department staffing levels. Better still consider increasing daily staffing levels to adequately serve and moreover, adding more engine companies to meet the growing demands of the City's needs. So, so many more homes continue to go up in the City. What responsible actions are you going to take to make Chula Vista a safer place to live?

Sincerely,
José Vigil

Subject: No to Fire Department Budget Cuts

Dear Council Members & Mayor Salas, I know that the City of Chula Vista is facing financial problems and is looking at budget cuts. I wanted to let you know how disappointed I was to learn that our Fire Department faces deep cuts to a service that is invaluable to our community. The Chula Vista Fire Department currently has one of the lowest staffing levels in the nation and has failed to meet adequate response times six years in a row. This department cannot afford cuts and continue to offer the same level of service that I expect in return for my tax dollar. Please consider every possible avenue to not only maintain current fire department staffing levels. Better still consider increasing daily staffing levels and adding more engine companies to meet the growing demands of the City and to make Chula Vista a safer place to live.

Sincerely,
Chris Elwart

Subject: No to Fire Department Budget Cuts

Dear Council Members & Mayor Salas, I know that the City of Chula Vista is facing financial problems and is looking at budget cuts. I wanted to let you know how disappointed I was to learn that our Fire Department faces deep cuts to a service that is invaluable to our community. It is not acceptable to lay off any firefighters and/or close a fire station - under any circumstances. The Chula Vista Fire Department currently has one of the lowest staffing levels in the nation. This department cannot afford cuts and continue to offer the same level of service that I expect in return for my tax dollar. Please consider every possible avenue to not only maintain our current fire department staffing levels, but increase them in order to make Chula Vista a safe place to live

Sincerely,
David Gyselbrecht
