24. What are your principal areas of interest in our City government, and what experience or special knowledge can you bring to those areas?

My principal areas of interest are helping the City reach current sustainability goals and plan for future goals.

I am currently the Community Relations and Recycling Manager for Republic Services in San Diego County. I have over 12 years of solid waste and recycling management industry experience. I've worked with over 12 different hauling divisions in 6 western states identifying the need for further development and subsequent coordination of recycling and operational programs.

In my current role I act as liaison between Republic Services and local government environmental services agents, ensuring that both exclusive and non-exclusive franchise agreements are being executed correctly. In addition, I oversee recycling initiatives in San Diego County geared toward helping Republic Services' customers comply with state and local mandated diversion goals. I am familiar with current strategies utilized by small, medium and large organizations aimed at increasing material diversion.

I recently participated in a 6 month long Sustainability Circle sponsored by the City of Chula Vista and SDG&E. The goal of the Circle workshops was for participating organizations to develop sustainability related strategies in the areas of water, energy and material management (MSW, Recycling and Organics).

I'm currently a member of the Sustainability/Green teams of various San Diego organizations, including; the San Diego International Airport, SD Port Authority and Evans Hotels.

I was a member of the City of Chula Vista's Clean Change Working Group whose goal was to help update the City's Climate Action Plan.

I received my degree from the Autonomous University of Baja California, majoring in International Business and a Master in Business Administration from Texas A & M University.

25. What would you hope to accomplish by your participation?

My desire is to rally stakeholders of all backgrounds to work together to ensure that the City of Chula Vista continues to be a leader in caring for our environment in a way that ensures current and future residents have a healthy and thriving place to call home. More specifically, I want to increase the visibility of companies within our City that are taking steps towards more sustainable practices, attracting startup companies whose businesses revolve around sustainability to set up shop in our City, help develop strategies that will assist our City in meeting state mandated diversion goals.

I would consider it a privilege to be granted the opportunity to serve our City and its residents as a member of the RCC.

Best,
Carlos J. Jaime

P.S.
I submitted an application for a vacancy on the RCC earlier this year. Looking forward to hearing back.

26.

(o) I am familiar with the responsibilities of the Boards and Commissions for which I am applying. I attest that the information I have provided is accurate and true.

Thank you,
City of Chula Vista
