

RESOLUTION NO. _____

RESOLUTION OF THE CITY COUNCIL OF THE CITY OF CHULA VISTA APPROVING THE REMOVAL OF STOP CONTROL ON THE NAPLES STREET APPROACHES AT THE INTERSECTION OF NAPLES STREET AND FIRST AVENUE AND TO ACCORDINGLY AMEND SCHEDULE II OF THE REGISTER MAINTAINED IN THE OFFICE OF THE CITY ENGINEER

WHEREAS, the construction of the new Fire Station No. 9 adjacent to the intersection of Moss and Naples Streets necessitates the closure of Moss Street between Alpine Avenue and Naples Street and the closure of Alpine Avenue between Moss Street and Naples Street; and

WHEREAS, said road closures modify the existing all-way stop controlled intersection of Moss Street, Naples Street, and First Avenue to be a "T" intersection between Naples Street and First Avenue (the "Intersection"); and

WHEREAS, staff analyzed the proposed conditions at the Intersection using traffic patterns and estimated traffic volumes that would result from the proposed road closures to determine whether all-way stop control is still warranted at the Intersection; and

WHEREAS, said warrant study concluded that the all-way stop control at the Intersection was no longer warranted; and

WHEREAS, stop control is proposed to be maintained for the First Avenue approach at Naples Street.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Chula Vista that it approves the removal of stop control on the Naples Street approaches at the Intersection and accordingly amends Schedule II of the Register of Schedules maintained in the office of the City Engineer.
