Eastlake III HOA

20. **Certain seats on the Citizens' Oversight Committee require nomination by specific Nominating Authorities. If you are applying for one of these seats, please select your Nominating Authority below; otherwise, select "none":**

Chula Vista Middle Management/Professional Employee Group

21. **What are your principal areas of interest in our City government, and what experience or special**

knowledge can you bring to those areas? (250 words or less)

My principal areas of interest with the Measure A Committee is to ensure that the revenue is appropriately budgeted to the highest priority needs with due consideration from other members of the committee. Public safety is very important to the community and quality service reflects directly on the local agency's image of whether they are doing a good job or not. Improving Priority One calls for service response times is most important and I hope to be able to make a difference in the Measure A Committee funded strategies. My background as an employee for the City of Chula Vista since 1984 has seen the tremendous growth of our city through fiscally tight budgets and budgets that were easily balanced. With so many competing needs for the General Fund, Measure A helps stabilize the revenue needs to keep a fire department and a police department equipped and staffed at the most appropriate levels we need.

With my background as a licensed civil engineer and as a licensed traffic engineer in California, and involvement in the budgeting, funding and construction of capital infrastructure for Chula Vista, I can definitely add insight and historical knowledge and context to help the committee make recommendations for programming the Measure A revenue.

22. What would you hope to accomplish in the role of a Member of the Citizens' Oversight Committee? (250 words or less)

I hope to accomplish a demonstrated positive contribution towards the improvement of the service levels provided by the fire department and police department to the public. It is rare that a committee such as this one exists at a local level to make effective contributions towards helping public safety improve their service with a dedicated funding source. As a local resident for 40 years, Chula Vista has changed quite a bit from when I first visited here as a child over 50-years ago, but one constant has always been public safety responding to calls for service. Since inception of the Growth Management Oversight Commission, I have been a staff member contributing to the annual report on drainage, traffic and wastewater. I am aware of the challenges public safety has experienced as the city grew geographically in size and demands for service calls increased. The Measure A Committee is where my knowledge will help make a positive change for betterment that will be reflected in the best service public safety can provide to the public. I hope to learn more about public safety and be in a position to make effective positive change that only helps the citizens of Chula Vista.

23. I understand that to be considered, I must submit a resume along with this application.

FXR Resume April 2021.pdf

24.

(o) I am familiar with the responsibilities of the Citizens' Oversight Committee. I declare under penalty of perjury under the laws of the State of California that the information I have provided is accurate and true.

Thank you,
City of Chula Vista
