9. Do you live within the City limits of Chula Vista?

(o) Yes

10. Current High School:

[REDACTED]

11. To be considered you must be a student in 10th, 11th, or 12th grade to be eligible. Current Grade:

(o) 11

12. Are you or have you been involved in any local, civic or community groups?

(o) Yes

13. Which ones?

[REDACTED]

14. What are your principal areas of interest in our City government, and what experience or special knowledge can you bring to those areas?

I am interested in seeing how our City is investing in our youth and our youth incarceration rates and arrests. This is of interest to me because I recently learned that Chula Vista is one of the city's in our County with some very high youth arrests. I have read and learned a lot about restorative practices and justice and would like to see if our City is prioritizing these trainings with our police and community as a whole. I want to make sure all Chula Vista youth are in schools so that we can reach our full potential and finish our education.

I am also interested in seeing what recreation centers in our city are free for our youth to access and if we plan to bring free transportation for our City's youth.

I often attend community workshops in San Diego that have helped me understand the disparities and work we need to do for our community, so I will be bringing that knowledge to the YAC.

15. What would you hope to accomplish in the role of a Youth Action Council Representative? (250 words or less)

I would like to bring free recreation spaces for our youth to use their community gyms and I would also like to reduce our youth arrest rates. This is important to me because youth should be in school and also be able to have a healthy life. We can only achieve this by having access to our community gyms and recreation spaces that I know right now cost us. The youth arrest rates should be significantly lower so that we can be a model city to others around us. If we offer diversion programs, more education and recreational resources, we will have fewer arrests.

Our city has great leadership but with youth voice we can ensure our youth live a healthy life and are not put through the school to prison pipeline. My dedication to my community and involvement will make me an ideal YAC representative.

16. The City understands meeting schedules and individual's availability may change. We ask that you consider the meeting schedule when submitting an application.

(o) I have reviewed the Youth Action Council regular meeting date, time and frequency.

17.

(o) I am familiar with the responsibilities of the Youth Action Council. I attest that the information I have provided is accurate and true.

---

Thank you,

9. Do you live within the City limits of Chula Vista?

(o) Yes

10. Current High School:

[REDACTED]

11. To be considered you must be a student in 10th, 11th, or 12th grade to be eligible. Current Grade:

(o) 10

12. Are you or have you been involved in any local, civic or community groups?

(o) Yes

13. Which ones?

[REDACTED]

14. What are your principal areas of interest in our City government, and what experience or special knowledge can you bring to those areas?

My principal area of interest is being involved in the community service projects the YAC partakes in which helps link the community. I want to educate my community about climate action, especially when our main government certainly isn't. I am concerned and care about making a difference even if it's only in my community. The experience I have that I can bring into the YAC or our city government is my involvement with [REDACTED] at school as well as the Environmental Justice and Sustainability Club. Through these clubs, I have participated in many community service activities as well as other informative climate events. For example, I attended the Youth Climate Submit in July with SanDiego350 and went to the conference with Mayor Mary Casillas Salas where the establishment of CCA was discussed.

15. What would you hope to accomplish in the role of a Youth Action Council Representative? (250 words or less)

As a Youth Action Climate Representative, I hope to gain the knowledge and tools to become an activist in my community. I want to be able to create change and make a difference locally which will later help me take action as an adult. I have always been concerned with global warming and the harm it is doing to our planet but I am especially interested now that these issues are not being prioritized. It is important for me to form part of the team that brings forth this change and paves the road to improvement. I hope that my application is taken into consideration as I would be eternally grateful for the opportunity. Thank you for your time.

16. The City understands meeting schedules and individual's availability may change. We ask that you consider the meeting schedule when submitting an application.

(o) I have reviewed the Youth Action Council regular meeting date, time and frequency.

17.

(o) I am familiar with the responsibilities of the Youth Action Council. I attest that the information I have provided is accurate and true.

(o) Yes

13. Which ones?

[REDACTED]

14. What are your principal areas of interest in our City government, and what experience or special knowledge can you bring to those areas?

My principal area of interest is in law and the court system. I aspire to become a lawyer and to practice locally, if possible. I have a history of community service, having been a missionary twice as well as being a part of youth groups within churches for the past four years. I've participated in debates and have won a second place in a national debate back in Mexico. I greatly enjoy the art of debate, as well as helping the community, which are aspects that could aid me to fulfill my responsibilities in an excellent manner.

15. What would you hope to accomplish in the role of a Youth Action Council Representative? (250 words or less)

I seek to learn more of the community that I know will continue to be my home for the future, as well as becoming familiarized with legal or political fields that I will hopefully someday be working in. I greatly look forward to knowing parts of Chula Vista that I previously haven't, as well as being able to aid in any way I can the people in it.

16. The City understands meeting schedules and individual's availability may change. We ask that you consider the meeting schedule when submitting an application.

(o) I have reviewed the Youth Action Council regular meeting date, time and frequency.

17.

(o) I am familiar with the responsibilities of the Youth Action Council. I attest that the information I have provided is accurate and true.

**9. Do you live within the City limits of Chula Vista?**

(o) Yes

**10. Current High School:**

[REDACTED]

**11. To be considered you must be a student in 10th, 11th, or 12th grade to be eligible. Current Grade:**

(o) 10

**12. Are you or have you been involved in any local, civic or community groups?**

(o) Yes

**13. Which ones?**

[REDACTED]

**14. What are your principal areas of interest in our City government, and what experience or special knowledge can you bring to those areas?**

I have visited the City of Chula Vista's Web site and there are a lot of interesting areas the city oversees. I was especially interested in the Department which handles all aspects of being "Clean" since I wasn't aware that this department existed before I visited the Web site. I like the things I see promoted with this Department and think this is something that will be of interest to many students. Also, I have a passion for government and ensuring all voices are heard. Also, I love animals and have a special relationship with my own golden retriever as a therapy dog, so aspects of the City's Animal Care Department are interesting to me. I have been raised with a volunteer spirit. In fact, I completed all of my High School volunteer service hour requirements last year and I won an award a couple of years ago for having the most volunteer service hours in the history of my school. My parents have always taught me about the importance of getting involved with my community to make sure that it's a great place to live and to take pride in where I live and do my part to make it a better place. My father has a history working in government at several different levels and he has helped me understand the role of City government and how groups of individuals can influence local policies and decisions. Being [REDACTED] I think I can bring a unique perspective on many issues, particularly as it relates to reaching youth in our community. A lot of youth don't feel like they have the power to change anything they don't like. They feel hopeless. They don't understand that if they just try to participate and learn about how City government works and show up to have their voices heard, they can actually impact changes. I'd like to try and teach people of my generation that they can have a voice and that they can give a perspective that adults will hear and consider when making decisions about policies, procedures, and priorities for our City. I have done elective courses and am skilled at video production, editing, sound, and production. I also understand the power and limits of social media and think that I could contribute with content and production that could be used specifically to target youth in Chula Vista based on City priorities. I would truly appreciate the opportunity to work collaboratively with a group of city leaders to promote our great city and get more people involved to showcase how wonderful it is to live in Chula Vista.

**15. What would you hope to accomplish in the role of a Youth Action Council Representative? (250 words or less)**

I know that not all students are raised with the same values and appreciation for civic pride that I have received. I'd like to try and do my part to raise awareness with other students and young people in our community about the various services that the City offers and the ways that they can get involved and directly make a difference. For example, all high school students need to perform community service hours for graduation. I would like to have more direct marketing and work with specific City Departments to target specific City volunteer opportunities towards high school students. Some students may be interested in careers for which volunteering with certain City departments could help. I could design campaigns that target this audience. Also, reaching youth in the City has the potential to reach their parents as adults. Parents who take an interest in their kids' activities could be exposed to marketing strategies geared to Chula Vista youth, which could result in more parents engaged in City activities. Whether promoting an upcoming City event, soliciting volunteers for City events, or raising awareness of the need for public input for City government policies, I think I could design campaigns to get people interested and involved. I think the best cities have a lot of people invested and involved in their local government. In

---

addition, I think I have a unique perspective as an [REDACTED] person which allows me to see things differently than others. It is a pleasure to offer my talents and my services to my city.

**16. The City understands meeting schedules and individual's availability may change. We ask that you consider the meeting schedule when submitting an application.**

(o) No

13. Which ones?

Not answered

14. What are your principal areas of interest in our City government, and what experience or special knowledge can you bring to those areas?

Based on my point of view I'm interested in certain areas of my city in Chula vista and I want to make a big change to have the best for my city! I want to show to teenagers that leadership can be possible for everyone and also create a safe environment for my city

15. What would you hope to accomplish in the role of a Youth Action Council Representative? (250 words or less)

I think I would like to make a big change in the city of Chula vista where people can feel that they are safe, also I want to make a big change that it can benefit not only the city but also young people like me; I want them to feel that they are safe in any area where they are, especially in their schools. I would also like to promote activities between neighborhoods and streets that can improve a system where the streets can be clean and safe. Finally, the cultural area of Chula vista is another of my great approaches and i would like to promote more artistic or theatrical functions and generate more attention from young people!

It would be a great honor to be part of this commitment!

Thank you

(o) No

13. Which ones?

Not answered

14. What are your principal areas of interest in our City government, and what experience or special knowledge can you bring to those areas?

I care deeply about how the government can make people's lives better. For instance, from making schools safer places to improving the health of its residents, there are many different ways that the government can add value to its residents.

I feel that I can add value because I actively follow politics on a daily basis and have strong viewpoints on what can and cannot work. Therefore, my instinct and conviction are my strongest assets.

15. What would you hope to accomplish in the role of a Youth Action Council Representative? (250 words or less)

I hope that I can use my knowledge and views to improve my community. At the least, I hope to have a positive impact on my fellow classmates at [REDACTED] and at the most I would hope to contribute to the well-being of the greater population of Chula Vista.

In my two and half years as a student at [REDACTED] i have so far completed several sessions of community service. This has primarily consisted of volunteering for various community events at my [REDACTED] [REDACTED] In particular, I enjoyed volunteering at our Halloween festivals - it makes me happy to participate in events that make others happy. It's this enthusiasm which I feel will make me a valuable asset to the Youth Action Council.

16. The City understands meeting schedules and individual's availability may change. We ask that you consider the meeting schedule when submitting an application.

(o) No

13. Which ones?

Not answered

14. What are your principal areas of interest in our City government, and what experience or special knowledge can you bring to those areas?

My principal area of interest in our City government is to form a connection through neighbors and peers in our city. I would love to be able to organize and formulate ideas for the community. I was able to volunteer at South Chula Vista Library and a lot of other opportunities such as community outreaches, cleaning, organizing traditional cultural events such as Easter Sunday at my nearby park. Most importantly, I would love to gain experience and special knowledge that would contribute to the community and especially this program.

15. What would you hope to accomplish in the role of a Youth Action Council Representative? (250 words or less)

I would hope to bring upon improvement in our community and increase involvement in our community as a whole. I would love to manifest friendships throughout the city of Chula Vista and also outside of it. I enjoy creating helpful ideas in any way possible either small or big. As I plan to create a robot that will benefit the less developed countries, I want to gather as much information about how the world and human works, in hopes of helping it.

16. The City understands meeting schedules and individual's availability may change. We ask that you consider the meeting schedule when submitting an application.

(o) Yes

13. Which ones?

[REDACTED]

14. What are your principal areas of interest in our City government, and what experience or special knowledge can you bring to those areas?

I am extremely interested in the lawmaking process and the duties of councilmembers and the mayor in the legislative process. I have learned about the procedures of bill creation in Youth and Government and have gained a deeper knowledge of the law than many my age have.

15. What would you hope to accomplish in the role of a Youth Action Council Representative? (250 words or less)

I wish to make an impact on the city I live in. I want to offer the perspective of the modern teenager to ensure that our opinions and needs are not disregarded due to our youth. I would like to encourage city officials to help reform our school system to better provide for racial minorities, LGBT+ students, and any students who have found themselves left behind by education styles not tailored to their needs. Most importantly, I wish to establish connections with officials and bureaucrats within the government so that they value my input as a high school student.

16. The City understands meeting schedules and individual's availability may change. We ask that you consider the meeting schedule when submitting an application.

(o) I have reviewed the Youth Action Council regular meeting date, time and frequency.

17.

(o) I am familiar with the responsibilities of the Youth Action Council. I attest that the information I have provided is accurate and true.

[REDACTED]

**11. To be considered you must be a student in 10th, 11th, or 12th grade to be eligible. Current Grade:**

(o) 11

**12. Are you or have you been involved in any local, civic or community groups?**

(o) Yes

**13. Which ones?**

[REDACTED]

**14. What are your principal areas of interest in our City government, and what experience or special knowledge can you bring to those areas?**

I have many areas of interest in our City government but one of the areas I find most interesting is our city's environment and well being for its citizens. I personally have worked all around Chula Vista as an intern for the environmental organization I Love A Clean San Diego (ILACSD) and have seen first hand all of the problems facing our community. I strongly believe that a clean community will help the residents of the area and bring about a more positive attitude in Chula Vista. Especially since I am a student I feel that it is important to have pride in where you live and go to school/work and therefore it is important to maintain a clean community.

In addition, I am very interested in the well being of our citizens, which I consider to be the mental health of our residents and students. Chula Vista is a bustling town with all sorts of schools and neighborhoods having unique personalities. I feel that it is important for everyone in Chula Vista to enjoy where they live and have access to all the resources they might need. It is important to have clinics for students and safe spaces for adults to go because mental health is a very prominent epidemic in our country. I have noticed a lack of action in this area of personal health so I would like to make an effort to make the Chula Vista community happier and healthier.

**15. What would you hope to accomplish in the role of a Youth Action Council Representative? (250 words or less)**

If I were given the opportunity of being a Youth Council Representative I would hope to positively impact the Chula Vista community by accomplishing a range of new changes. For one I would hope to have all of our school districts involved that way students know that they have a link to the Chula Vista community. I feel it is important for the students in this community to understand that there is an entire council of kids their age who are willing to help make Chula Vista a better place for them. I would hope to establish communication with the counselors of every school so that there was an effective way for the council to be aware of the needs of the schools. In addition, I would hope to get the students more involved in community projects. Being a student in the [REDACTED] and an intern at [REDACTED] I have seen first hand how uninvolved kids are with volunteer work. I would implement ways of getting students involved with improving their community, especially high school students since community service is required, and hopefully create a space where families and students enjoy coming together to help their community. Ultimately I would hope to bring the community of Chula Vista together by encouraging kids my age to participate in the well being of their community.

**16. The City understands meeting schedules and individual's availability may change. We ask that you consider the meeting schedule when submitting an application.**

**9. Do you live within the City limits of Chula Vista?**

(o) Yes

**10. Current High School:**

██████████

**11. To be considered you must be a student in 10th, 11th, or 12th grade to be eligible. Current Grade:**

(o) 10

**12. Are you or have you been involved in any local, civic or community groups?**

(o) Yes

**13. Which ones?**

I was involved in a self made community service during middle school. 3 friends of mine and I would raise money for non-profit organizations and volunteer with them. In 7th grade we worked with St. Pauls and 8th grade we worked with Father Joes.

**14. What are your principal areas of interest in our City government, and what experience or special knowledge can you bring to those areas?**

I am most interested in understanding how my country works. For instance, being only ██████████ and Mexican-American I do not know much about this country and it disappoints me. I want to be able to understand political matters and make a difference in the country I have grown up in; the United States. Moreover, the United States is unique in that laws and government are respected. In countries like Mexico, politicians and people in power are corrupt and only pursue political positions in order to steal money. This angers me in ways that I can't even describe, but luckily i have opportunities like these. Through Youth Act Council, I seek to understand how the city of Chula Vista organizes and address issues. Moreover, experiences i have in leadership and community service would be a class that i took in my two years of middle school. The class was know as Service Learning and in this class we formed groups that would contact non-profit organizations independently and work with them. In my first year my group of four accomplished 26 hours of community service with St. Pauls Plaza; an assisted senior home. Finally, in eight grade my group of four completed 30 hours of community service and raised about a hundred and fifty dollars in sanitary products with Father Joes Village; an organization that seeks to end homelessness in San Diego.

**15. What would you hope to accomplish in the role of a Youth Action Council Representative? (250 words or less)**

If I were to be a Youth Action Council Representative I would hope to accomplish a positive change in our community and making everyone at least a little bit happier. Whether its serving food to the homeless, cleaning beaches, tutoring kids, encouraging music therapy to elders dealing with memory loss, or even making coffee to one of my supervisors my only goal is to make Chula Vista an even better city than it already is.

**16. The City understands meeting schedules and individual's availability may change. We ask that you consider the meeting schedule when submitting an application.**

(o) I have reviewed the Youth Action Council regular meeting date, time and frequency.

**17.**

(o) I am familiar with the responsibilities of the Youth Action Council. I attest that the information I have provided is accurate and true.

**13. Which ones?**

Not answered

**14. What are your principal areas of interest in our City government, and what experience or special knowledge can you bring to those areas?**

I am very interested in becoming an Engineer and would like to advocate to improve the City from an Engineering perspective.

I have had some experience in community involvement in San Diego to tackle hard issues.

During my Freshman year I had a project called Tiny Homes, which was about helping out the homeless community by creating and building Tiny homes for them that are affordable to build but are safe and an opportunity for them to have temporary shelter.

Another related project was Restoring dignity of the homeless community, my class came up with different ideas to build things to help them in their daily lives. My idea, which got selected for the whole class to build, was to create solar portable chargers that are easy to carry around and the homeless can charge their phones at any time without the struggle to get kicked out of anyplace. This can help them apply for jobs easier and be in contact with others.

Here is a link to the interview I had about these projects for Univision:

[REDACTED]

**15. What would you hope to accomplish in the role of a Youth Action Council Representative? (250 words or less)**

I want to take this opportunity to do something great for my city and to help the Youth Action Council to communicate, agree and take action.

The main issue is in observing our different points of views, and being able to build on one another to agree on a solution for the betterment of our community. For example, I believe we should bring more renewable energy projects to our City to improve our community. The world is changing and we as a city can be an example for a solution for the betterment of our society. Most students agree with this, we just need to work together to make this happen. This summer I participated at UCSD Future leadership program and was able to work with students from different countries to improve the future of our world. One of the issues we worked on was alternative energy and I realized that we need to come together and make a change.

**16. The City understands meeting schedules and individual's availability may change. We ask that you consider the meeting schedule when submitting an application.**

(o) I have reviewed the Youth Action Council regular meeting date, time and frequency.

**17.**

9. Do you live within the City limits of Chula Vista?

(o) Yes

10. Current High School:

[REDACTED]

11. To be considered you must be a student in 10th, 11th, or 12th grade to be eligible. Current Grade:

(o) 11

12. Are you or have you been involved in any local, civic or community groups?

(o) Yes

13. Which ones?

[REDACTED]

14. What are your principal areas of interest in our City government, and what experience or special knowledge can you bring to those areas?

The city of Chula Vista came to a legal agreement after voting, that they would allow Cannabis businesses to open up and be a regular part of the community. This was part of the bill that America passed to make Cannabis legal in certain states. Now this epidemic has widespread over the city of Chula Vista and there are some concerns about it. My concern as a student and citizen is that in the city of Chula Vista I have observed that there are many Cannabis businesses which affect the environment we live in, because you see a lot more consumption and sometimes it doesn't make you feel safe. And as a student and citizen I can bring my point of view as to what I notice in a regular day in the city of Chula Vista. And I can list locations in which help is most needed.

15. What would you hope to accomplish in the role of a Youth Action Council Representative? (250 words or less)

What I would like to accomplish in the role of a Youth Action Council Representative is discussing the problem of homelessness and other issues that occur in Chula Vista and how we can help to try and solve them. And also ways we can improve the community via affordable homes and more job opportunities.

16. The City understands meeting schedules and individual's availability may change. We ask that you consider the meeting schedule when submitting an application.

(o) I have reviewed the Youth Action Council regular meeting date, time and frequency.

17.

(o) I am familiar with the responsibilities of the Youth Action Council. I attest that the information I have provided is accurate and true.

9. Do you live within the City limits of Chula Vista?

(o) Yes

10. Current High School:

[REDACTED]

11. To be considered you must be a student in 10th, 11th, or 12th grade to be eligible. Current Grade:

(o) 10

12. Are you or have you been involved in any local, civic or community groups?

(o) Yes

13. Which ones?

[REDACTED]

14. What are your principal areas of interest in our City government, and what experience or special knowledge can you bring to those areas?

I would bring attention to the issues I see amongst my classmates, neighbors, friends, and youth in Chula Vista. Something I see commonly with young adults is nicotine addiction. I want to bring awareness to the consequences of these actions. When I would work with the children from the [REDACTED] many families of the children have suffered from drug addiction. I think it is crucial for our communities to be exposed to reality, and teach them what they could do to avoid falling in this hole. Something I desire is to collaborate with the Healthy Chula Vista Advisory Commission, in the hope of teaching kids and adults about healthy eating habits and healthy sanitary habits. A project I've been wishing to launch is one for the homeless people in our community. My goal is to educate them about basic protocols for staying clean and healthy. In [REDACTED] we gather once a week, and once a month we go into our communities to help the less fortunate. Something I've noticed is a lack of hygienical care.

15. What would you hope to accomplish in the role of a Youth Action Council Representative? (250 words or less)

As a Youth Action Council Representative, I will set myself up as a leader and role model to my peers. I will do all I can to help the association, the city, and anyone in need of my assistance. My plan is to bring attention to the problems we are confronted by in our society and resolve them. I've lived in Chula Vista my entire life, I would love the opportunity to work with the council and make Chula Vista a better place then it already is.

16. The City understands meeting schedules and individual's availability may change. We ask that you consider the meeting schedule when submitting an application.

(o) I have reviewed the Youth Action Council regular meeting date, time and frequency.

9. Do you live within the City limits of Chula Vista?

(o) Yes

10. Current High School:

[REDACTED]

11. To be considered you must be a student in 10th, 11th, or 12th grade to be eligible. Current Grade:

(o) 11

12. Are you or have you been involved in any local, civic or community groups?

(o) Yes

13. Which ones?

[REDACTED]

14. What are your principal areas of interest in our City government, and what experience or special knowledge can you bring to those areas?

As a writer at my high school's, [REDACTED] newspaper, I am brought up to date upon what is important to the community and the students. I know firsthand what it is like to be a high school student in need of support. I also know what it is like to suffer from [REDACTED] which I know other students have had, it just seems so taboo to talk about it. I want to bring it out into the public eye and offer support and medical care to those students by raising awareness and making it something that we can talk about, something that people understand.

15. What would you hope to accomplish in the role of a Youth Action Council Representative? (250 words or less)

Looking in the news with my mother, I often feel shock. We read about suicides from people we didn't even know were suffering. It makes me wonder what was going on in their lives, what drove them to the edge. It makes me look at myself. I am so lucky to have a loving family that makes an effort to understand me and care for me. Without them, I don't even know where I would be.

There are so many people without families, without support. I want the community to extend a hand to them, to let them know that there are people who care, people who can help. I want teens my age to get the medication and hospitalization they need. I want to spread knowledge about ways to get help and make it acceptable for them to speak up to a teacher or an adult who can give aid.

I also want to prevent mental illness from ever manifesting. I want to teach young children about kindness and the importance of being happy. I know that stress from school can drive a person crazy. People need to know where their values should lie. You don't need to be perfect to be content.

During my English class, during the final, my teacher remarked on how she had seen students crying over their essays. These tears were caused by fear of failing. I want to give hope to people who are feeling mentally incapable and give them support from the community.

16. The City understands meeting schedules and individual's availability may change. We ask that you consider the meeting schedule when submitting an application.

(o) I have reviewed the Youth Action Council regular meeting date, time and frequency.

17.

(o) I am familiar with the responsibilities of the Youth Action Council. I attest that the information I have provided is accurate and true.
