22. **What are your principal areas of interest in our City government, and what experience or special knowledge can you bring to those areas?**

---

My principle area of interest is development of our city. I am a building contractor and real estate investor. These two things make me want to create opportunities for development in our city. I am also a resident of Chula Vista and I am a parent. These two things make me want to slow down on development and think things through for the present and more importantly the future of our city.

I believe understanding real estate and construction makes me a candidate for this Board. I believe in learning from others and this board has a lot of examples throughout our state to evaluate and learn from.

I would hope to be a contributor to the community by making fair decisions and recommendations. The folks on this board play an important role in the construction of our city and I would take that very serious and do the "homework" needed to make the right recommendations. My overall hope would be that I always keep the future in mind and not get blinded by the present.
