Dear Major & City Council-members;

The vote for the above issue is coming up before you & I am urging each of you to remain true to the original plan of commercial space for this project.

We need the income from commercial properties to help us begin to dig our way out of the financial hole we are now in & will only get devastatingly worse if we do not plan wisely .

As a long time citizen of Chula Vista I am appalled that we the citizens have not protested this issue years ago when it could have been corrected with less pain.

As one member of a recent meeting stated , she thought those elected would do the right thing for the city & make good judgements for the benefit of everyone. She further stated that she recently saw the budget online & became frightened at what she saw as the state the city is actually in financially. When we all saw the presentation we were equally scared for the future. It was 2008 locally all over again!

Will you all rise to the occasion & save us?

We are hoping that you will!!!!!!

Sincerely,

A voter who has never missed an election,

Bettie Lupi

Subject: Millenia

The original plan for the Eastern Urban Center ("Millenia") called for 3.4 million square feet of commercial of one sort or another. I never did see a breakdown of the details. Now, the developer/staff plan before you wants commercial to be a range of a *minimum* of about 1.6M and a *maximum* of 3.3M.

Recognizing that 'brick and mortar' retail is no longer a large factor, Crossroads is suggesting a *minimum* of 2.5 million square feet of commercial.

But on page 8 of the Staff Report, it does mention a suggested breakdown of the maximum 3.3 figure - - including "**2.55 million square feet of office.**" Bingo! That's exactly what you should be aiming for - - office jobs are good jobs, and most people who work in offices can afford to live in Chula Vista - - and office buildings are a good tax base.

That's exactly what Chula Vista needs, both as a tax base and a jobs base. And Millenia is surely the last chance Chula Vista have for a significant tax/jobs opportunity.

Peter Watry/Crossroads II

Subject: Item #8 on July 10th Council Meeting

Madame Mayor and Council Members:

You have a fiduciary responsibility to the City of Chula Vista and the citizens who elected you to represent them. Thus far, you have been exceedingly derelict in your duties in that regard. The fact that previous mayors and councils have been equally derelict, and they most certainly have, does not exculpate you in your dereliction.

The City is on the brink of bankruptcy. This is due in large part to the lack of sufficient tax income, and the cost of high government salaries and perks, infrastructure, police and fire protection. Of those last three, the last two are the essential expenses that needs to be met. As a result of the fiduciary incompetence and mis-management of funds available, it has been necessary to raise the sales tax twice in one 12-month period in the hopes of meeting those costs. And the City remains on the brink of bankruptcy. You are to be shamed!

It is your responsibility to recruit clean commercial business to the city. You have done little or nothing in this regard. Any attempts that you may have made have been woefully unsuccessful. What is even more egregious is that you have substituted these necessary efforts with accepting paltry developer fees that actually in *both the short and the long term* cost the city more than any income the developments they build generate. What can you possibly be thinking? It is long past time to do business with developers who are willing to build fewer high density residential units, and more commercial square footage. Those are the developers you should seek. And then you should be recruiting the necessary businesses to occupy that space.

If the current developers are not willing to develop here under those terms, find developers who are willing to take smaller profits rather than no profits! It is long past time to stop giving in to the demands of outside interests at the expense of the people who live in this city.

I strongly urge you to NOT approve the proposed amendments! Adhere to the maximum amount of commercial space, and the minimum amount of residential units in the Millenia Plan. And then begin doing the job for which you were elected.

Sincerely,

Jo Anne Springer

Council Member

Please do not vote for approval of Item 11, until a new review is made - I think the City will lose revenue of over 5 Million Dollars in the future as reflect in this proposal. I hope you know more about Item11, I only have what is written/statement.of Item 11. As you may or not be aware, the city Manager is a strong support for Property Development Groups - his background in city service has been Property Development Programs. If it is good for developers, he act like it what is best for the city.

Subject: Vote No to Reduce Commercial Space at the Millenia Development

Dear Mayor Salas, John McCann, Steve Padilla, Pat Aguilar and Mike Diaz Tonight, Tuesday, July 10, you will vote on a proposal to reduce the amount of commercial space at the Millenia development. The change is anticipated to reduce projected tax revenues by \$4.5 million. Since, this reduction to tax revenues will increase our proposed deficits, I ask that you vote NO. Please preserve our library, recreation resources and public works staff.
Sincerely, Pamela Susann [REDACTED] Chula Vista, CA 91911

TO:
Mary Salas
Pat Aguilar
Steve Padilla
John McCann
Mike Diaz:

People who long study, closely follow, and know these issues say:

"If Chula Vista reduces Millenia's retail space, it will lose \$4.5 million annually."

Our city is already in deep and growing debt, and as it grows you will cut even more staff from our libraries, parks, and other operations vital to, and characteristic of, civilized people.

Please do not pass the measure reducing Millenia's retail space!

- David E. Davis, registered voter, activist, and Chula Vista resident.
