Encuesta sobre las necesidades del Centro acuático y de recreación de Loma Verde

¡Queremos su opinión!

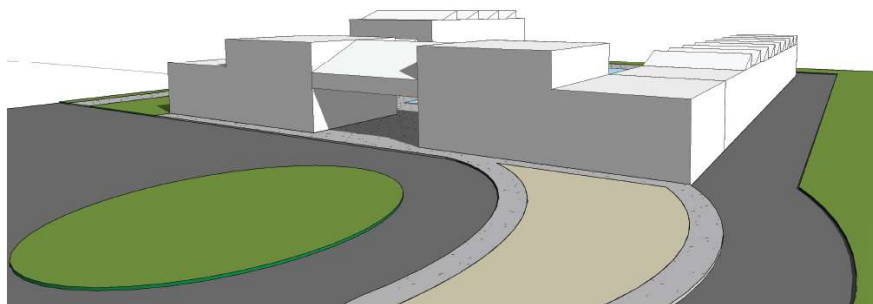

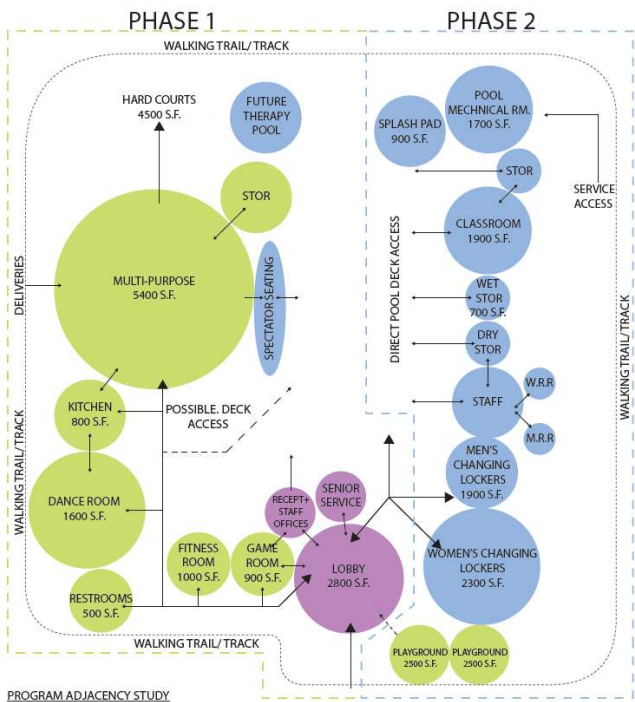

Participe en la encuesta de la Ciudad de Chula Vista y comparta su opinión sobre los tipos de programas y espacios que le gustaría ver en el futuro para el centro Loma Verde nuevo y mejorado. Sus comentarios ayudarán a guiar a la Ciudad mientras trabajamos en identificar y obtener fondos para convertir este proyecto realidad.

El Centro de recreación y acuáticos de Loma Verde fue construido en la década de 1970 y ofrece programas e instalaciones para la comunidad en el área suroeste de Chula Vista. A lo largo de los años, se ha realizado una remodelación para abordar las necesidades específicas y las reparaciones se completaron según lo permitido por el financiamiento. Ha llegado el momento de echar una nueva mirada a Loma Verde con el objetivo de trabajar para reconstruir un centro comunitario que satisfaga las necesidades de todos en nuestra comunidad, desde los jóvenes hasta nuestros adultos mayores, desde los equipos de nuestra escuela / club hasta los niños en el patio de recreo. Necesitamos tomar los primeros pasos para comenzar a planificar el reemplazo y luego reconstruir Loma Verde en fases a medida que se asignan los fondos.

¡Sus comentarios cuentan y son muy apreciados!

1. **Que tan seguido usa su familia el centro de Loma Verde?**
 - Mas de 2 veces por semana
 - 1 a 2 veces por semana
 - Unas veces por mes
 - Unas veces por año
 - Casi nunca
2. **Que tan seguido usa su familia el Centro Acuático de Loma Verde?**
 - Mas de 2 veces por semana
 - 1 a 2 veces por semana
 - Algunas veces por mes
 - Algunas veces por año
 - Casi nunca

LOMA VERDE RECREATIONAL AND AQUATIC CENTER

LOMA VERDE RECREATION CENTER HIGH-LEVEL MASTERPLAN – SEGMENT 3

This image represents a high-level concept which requires further design development

Additional work includes a zero-depth entry therapy/teaching pool and a separate 50m competition pool.

Next Steps

Project schedule subject to change:

- Preparation of Construction Documents for segments 1 and 2 – through June '21
- If approved, develop the design and construction documents of segment 3
- Pursue funding for construction
