**What are your Principal areas of interest in our City government, and what experience or special knowledge can you bring to those areas?:**

I am Interested in filling the vacant southeast Growth Management Oversight Commission. Before becoming a pharmacist, I was an Environmental Biologist working for Pacific Southwest Biological Services Inc. based out of National City. In the early 90', I worked in the field, conduction environmental impact reports for local cities, including Chula Vista. After, I gained valuable work experience with major Pharmaceutical companies including Merck and Johnson & Johnson based out of La Jolla. There I conducted research on ailments that affect our aging population, thus my interest in the Commission of Aging. Furthermore, now as a Pharmacist I talk to hundreds of patients a week and know the importance of providing ways to alleviate stress and improve the quality of life. Other than medication and therapy, enjoying the wonderful Park & Recreation Services our City provides is a perfect way to to live a happy and healthy life.

**What would you hope to accomplish by your participation?:**

The experience I have in multiple areas of science, combined with my ten years of public service as a Pharmacist provides me with unique perspective and ideas I can share with the City of Chula Vista. I would like to take an active role in our city's growth, setting the stage for prosperity of the city and its people.

Dr. Raymundo Alatorre Jr. PharmD.
