

Overview

This financial report summarizes the City's General Fund financial position for Fiscal Year 2018-2019 through September 30, 2018, and projections for the remainder of the year ending on June 30, 2018. The purpose of this report is to provide the City Council, Management and the citizens of Chula Vista an update on the City's fiscal status based on the most recent financial information.

This report also includes information from the City's long-term financial plan (LTFP). The LTFP is a forecast of ten future years based upon information available at the time and is updated annually to reflect the most current information available. The full LTFP can be found on the City's website at https://www.chulavistaca.gov/departments/finance/financial-reports.

At the end of the first quarter, the City's financial outlook is projected to be primarily unchanged as the revised projections anticipate growth in revenues slightly outpacing growth in expenditures. Based on current projections, revenues are anticipated to increase by approximately \$0.4 million and expenditures are anticipated to decrease by less than \$0.1 million for a positive difference of approximately \$0.4 million.

Revenues

The following table shows the FY 2019 General Fund Adopted Budget revenues and the year-end Projected Budget revenues. The Projected Budgets includes all the change in projections included in this report. Overall, General Fund revenues are projected to increase by approximately \$0.4 million above the Adopted Budget amounts. The primary driver of the increase in revenues is due to an adjustment to the Property Tax In-Lieu of Vehicle License Fees projection. Based upon information from the County of San Diego, this revenue category is projected to be approximately \$0.3 million higher than the original adopted budget amount. The balance of the projected revenue increase is due to increases to various departmental revenues within the Revenue from Other Agencies and Charges for Services revenue categories.

The proposed budgetary adjustments are shown within the respective revenue categories in the following table.

The Finance Department will continue to monitor the City's actual revenues and will provide any significant changes in subsequent quarterly budget monitoring reports.

Expenditures

The following table reflects the FY 2019 General Fund Adopted Budget expenditures and actual expenditures by department as of September 30, 2018. In total, departments have expended \$47.4 million or 27% of the General Fund budget after 25% of the fiscal year has elapsed. Overall, departmental expenditures are tracking consistent with the budget as of the end of the first quarter. Staff will continue to monitor department expenditures to identify any costs that might trend higher than anticipated and proposed future actions to address these trends as appropriate.

GENERAL FUND EXPENDITURES AS OF 9/30/2018

The following table reflects the projected expenditures for June 30, 2018 with the various proposed department adjustments for the first quarter. The largest variance projected at year-end is due to budget adjustments for police personnel. At the end of the fiscal year, the Finance Department will be seeking to make transfers from other expenditure categories with projected savings and to appropriate available revenues to fully utilize resources and mitigate any departmental deficits.

LONG-TERM FINANCIAL PLAN UPDATE – FISCAL YEARS 2020 TO 2024

A focus of this financial report is to review the Long-Term Financial Plan (LTFP) and look beyond the current fiscal year at fiscal issues facing the City on the horizon.

The following table displays the updated financial projections for fiscal years 2020 through 2024. A more detailed table that includes all ten years is provided at the end of this report.

While no revenue shortfall is anticipated for Fiscal Year 2018/2019, the current LTFP projects budget fiscal deficits beginning in FY 2020. Assuming no additional financial measures or policy changes to either increase revenues or reduce expenditures, Fiscal Year 2019/2020 projects a revenue shortfall of \$7.1 million, growing to a deficit of \$17.7 in Fiscal Year 2023/2024 and \$31.8 million in Fiscal Year 2028/2029 (the last year of the LTFP).

For revenues, additional revenue sources or increasing growth in existing revenue sources will be needed. The City of Chula Vista continues to pursue development opportunities that have the potential to positively impact revenue for the City. These include the development of the Eastern Urban Center

(Millenia) and the approval of the Bayfront Development Project. However, these large developments are still several years away from being built and occupied.

For expenditures, the most significant drivers of the long-term grow in expenses are related to the increase in public safety costs and the increasing costs associated with public employee salaries and benefits.

Fiscal Year 2019 Budget Balancing

The purpose of this review is to highlight the structural imbalances that the City will face next fiscal year, and to focus problem solving efforts toward a menu of viable options. These projections will continue to evolve as new information becomes available. The projections within this report assume continued economic growth. Even a small or short-lived economic downturn will amplify the projected deficits shown in the LTFP. These projections do not assume the passage or potential impact of any future tax measures that may be considered by the City.

SUMMARY AND NEXT STEPS

At the conclusion of the first fiscal year quarter of 2018-19, the current year budget is on track for revenues and expenditures, with minor modifications. Staff is watching expenditures and revenue projections to assess whether further modifications will be necessary later in the year.

The longer-term projections for the City's General Fund continue to pose serious challenges, because revenues will not be sufficient to cover projected costs that are on the horizon. Because the City has limited abilities to impact near-term revenue, its staff and policy makers will need to focus their efforts on the cost side by finding savings, modifying service levels, cost cuts or cost delays for the upcoming year, even as efforts continue to address economic development opportunities throughout the City.
